

SPEAKER BIOS: GETTING TO RESILIENCY WEBINAR

Lisa Auermuller has been the Watershed Coordinator for the Jacques Cousteau National Estuarine Research Reserve (JC NERR) in Tuckerton, NJ since 2002. Most recently, Lisa's primary areas of interest have been in stormwater management, climate change and coastal community vulnerability as it relates to sea level rise. Lisa has been working with a variety of partners to develop tools and protocols to help communities understand their risks, plan for those risks and put adaptation measures into place.

Mike Fromosky is a retired state police lieutenant and now serves as the Asst. Business Administrator for Little Egg Harbor Township. He has served as the Director of Community Development & Planning, the Director of Sandy Recovery, and with the Office of Emergency Management. In addition he is a Certified Floodplain Manager.

Marty Rosen is a career employee with the NJ Department of Environmental Protection (NJDEP). He is currently Manager of the NJ Office of Coastal Management. Priorities of the office include various planning applications such as coastal community resilience, municipal public access, and coastal and ocean resources. He is responsible for managing nearly \$2.4 million in NOAA grant funding and the various mandatory and discretionary responsibilities that are connected to the award.

Veda Truesdale is a senior research associate at the Bloustein School of Planning and public policy. She serves as co-chair of the Sustainable Jersey Climate Adaptation Task Force. Veda has spent over a decade working on various aspects of local climate change mitigation and resilience planning in New York and New Jersey.

Chris Badurek is a Resiliency Manager with the Sustainable Jersey's NJ Resiliency Network, where he assists communities in long-term recovery from Superstorm Sandy and climate and hazard resiliency planning. He has over ten years of prior experience in GIS applied to local government, environmental planning, and hazards analysis working with the Department of Geography and Planning and Research Institute for Environment, Economics, and Energy at Appalachian State University and instructor and researcher at the University at Buffalo. Chris is also a Certified Floodplain Manager (CFM) and certified Geographic Information Systems Professional (GISP).
